CRC TREE DEDICATION SCHEME

a "Partnership Cairns" Initiative

'Partnership Cairns' is a program that encourages business and community involvement in the enhancement and beautification of the city for its residents and visitors in partnership with the Council.

The **Tree Dedication Scheme** is implemented across the suburbs at selected locations in Council parks. This partnership scheme enables local residents to plant or dedicate an existing tree via a personalised plaque placed adjacent to it.

Council's role:

In this partnership Council will provide the following services:

- Prepare the planting site;
- Supply a semi-advanced native shade tree;
- Provide a personalised brass plaque mounted on a post;
- Care for the tree.

The community's role:

The community member's role in this partnership is to:

- Fill in the application form with all the required details;
- Pay the fee of \$500 for this service with the application;
- To make the arrangements for a personal or private tree dedication function, if required;
- To dedicate the tree with the personalised plaque.

Cairns Regional Council is very appreciative of this partnership with you in beautification of the public open spaces in the city and suburbs.
