

# Be Dingo Aware

## Dingoes are present in the region, if sighted

- Stay calm, keep eye contact, back away and do not run

## Walk in groups

- Always stay close to your children

## Dingoes are wild animals, and unpredictable

- Do not approach or encourage attention

## Do not feed dingoes

- If dingoes learn to expect food, they can become bold or aggressive
- This can be detrimental for humans and the dingoes

## Dingo sightings are not unexpected, but if you feel threatened

- Report any incident of aggressive dingo behaviour to Cairns Regional Council on 1300 69 22 47, report a problem on council website or My Cairns app
