

INVESTMENT POLICY

Intent To outline Cairns Regional Council's investment policy and guidelines regarding the investment of cash holdings with an objective of maximising earnings whilst minimising risk to ensure the security of Council funds.

The activities of the investment officers responsible for stewardship of Council's funds will be measured against the standards and objectives outlined in the Policy.

Scope This policy applies to the investment of all cash holdings of Cairns Regional Council. For the purpose of this policy, investments are defined as arrangements that are acquired or undertaken for the purpose of producing income and/or capital gains.

PROVISIONS

The following sets out the Investment Policy as required by chapter 5, part 4, and section 191 of *Local Government Regulation 2012*.

LEGISLATIVE AUTHORITY

All investments are to be made in accordance with:

- *Statutory Bodies Financial Arrangements (SBFA) Act 1982*
- *Statutory Bodies Financial Arrangements (SBFA) Regulation 2007*
- *Local Government Act 2009*
- *Local Government Regulation 2012*

ETHICS AND CONFLICTS OF INTEREST**Prudent Person Standard**

The standard of prudence is to be used by investment officers when managing the overall portfolio. Investments will be managed with the care, diligence and skill that a prudent person would exercise in managing the affairs of other persons. This includes having in place appropriate reporting requirements that ensure the investments are being reviewed and overseen regularly.

Investment officers are to manage the investment portfolios not for speculation, but for investment and in accordance with the spirit of this Investment Policy. Investment officers are to avoid any transaction that might harm confidence in Cairns Regional Council. They will consider the safety of capital and income objectives when making an investment decision.

Ethics and Conflicts of Interest

Investment officers and employees shall refrain from personal activities that would conflict with the proper execution and management of Council's investment portfolio. This includes activities that would impair the investment officer's or employee's ability to make impartial decisions as outlined in Council's Code of Conduct Administration Instruction. This policy requires that employees and investment officials disclose to the Chief Financial Officer any conflict of interest or any investment positions that could be related to the investment portfolio.

Delegation of Authority

Authority for implementation of the Investment Policy is delegated by Council to the Chief Executive Officer in accordance with sections 257 and 259 of the *Local Government Act 2009*.

Authority for the day to day management of Council's Investment Portfolio is delegated by the Chief Executive Officer to the Chief Financial Officer and subject to regular reviews with the Chief Executive Officer.

INVESTMENT OBJECTIVES

Councils overall objective is to invest its surplus funds at the most advantageous rate of interest available at the time and in a way that it considers most appropriate given the circumstances.

OVERALL RISK PHILOSOPHY

In order of priority, the objective of undertaking investment activities shall be preservation of capital, maintenance of liquidity and return on investment.

Preservation of Capital

Preservation of capital shall be the principal objective of the investment portfolio. This can be achieved by managing credit and interest rate risk with given risk management parameters and avoiding any transactions that would prejudice confidence in Council or its associated entities.

Credit Risk

The amount invested with any one financial institution should be in accordance with the Credit Risk Guidelines as described in Table 2. Credit risk will be minimised by Council by pre-qualifying all institutions with which we do business, diversifying the portfolio and limiting transactions to secure investments.

Interest Rate Risk

Minimising the risk of a change in the market value can be managed by maintaining Council's investment portfolio in line with cash flow requirements and limiting investments to short term investments.

Maintenance of Liquidity

This refers to Council's ability to access funds in the short-term to meet its day to day liquidity requirements. Council will seek to minimise the costs of failing to adequately manage its day to day liquidity needs through maintaining daily for next week, weekly for the next month, monthly and annual cash forecasts, establishing and maintaining an appropriate cash balance in the transactional banking account, establishing and maintaining a procedure for evaluating investment options for surplus funds and a list of approved investments for short term cash surpluses.

Return on Investment

The portfolio is expected to achieve the following performance benchmarks as a minimum set by Council.

Investment	Performance Benchmark
Cash / Cash Plus / Direct Investments	11 AM and UBS Bank Bill Index

Quotations on investments

Except for investments with the Queensland Treasury Corporation Capital Guaranteed Cash Fund, not less than three quotations shall be obtained from different authorised institutions when an investment is proposed.

In assessing the fair value of quotes obtained, the risk of the entity providing the return must be considered. The Fair Value Calculator provided by the Queensland Treasury Corporation is used to assist in this evaluation.
